

BBH 800 R (Rotating) - BBH 1000 R (Rotating)

Hydraulic concrete pulverizer

Concrete crusher for recycling / concrete pulverizer for floors, walls, panels, runways

- 1 Top Plate for bolt on bracket.
- 2 2 versions : B = without rotation.
R = continuous 360° hydraulic rotation.
- 3 Reversed cylinder, protected ram.
- 4 removable asymmetric teeth in 600HB casting steel, jaws in wear resistant steel with 600HB hard surfacing.
- 5 Gaps in jaws to allow concrete up to 180mm to pass through, also reducing dust.
- 6 V-shaped jaw leading edge improves penetration.

Option :
Removable cutting blades for rebar.
Option :
Speed valve for flow < 350L/min.
