## INNOVEX PIPE PUSHER™

Changing the way pipes and cables are inserted throughout the utilities sector. The Innovex Pipe Pusher excavator attachment offers a safer and more compliant way of inserting new PE pipe, approved to work on both live and dead insertion. By simply attaching the Pipe Pusher™ to the excavator arm you take away the manual handling and injury risks associated with pipe insertion.

The Pipe Pusher™ is fully operated from the safety of the excavator cab. The Pipe Pusher is compatible for the use with all large excavators from 9 tonne to 24 tonne excavators and can also be used for slip lining / manoeuvring & re-rounding pipe diameters up to 630mm.

### BENEFITS

- Efficient, easy mounting installation
- Durable & robust in harsh environments
- Safe insertion solution
- Action can be reversed to pull back if an obstruction is met, not possible with other insertion methods
- The 630mm model comes with a range of Shim inserts enabling use on 400mm, 450mm and 500mm pipe too. Giving the best possible gripping and releasing system across the market even in all conditions
- Lightweight and compact design for ease of storage and transportation
- Illuminates manual handling creating the compliant solution for inserting PE pipe
- The 630mm can attach onto 8, 13 and 20 tonne excavators depending on project

### SIZES

#### > 630mm

Bespoke Models available, designed to accommodate clients specialist requirements

Attaches to large excavators e.g. 8 tonne, 13 tonne etc
